TIME : 3 HOURS

MARKS : 100

This Paper consists of 3 Pages

INSTRUCTIONS TO CANDIDATES

1. Answer all questions in this paper
2. Number your questions correctly
3. Write Neatly

QUESTION 1

There is a strong argument in your staffroom that there is no need for high school students to do accounting as a subject if they want to pursue an accounting career because in universities the requirement is just Mathematics and English.

Prepare a report to convince management because Accounting must be part of the school curriculum. In your report highlight the following

- (a) Meaning of Accounting /3/
- (b) Purpose of accounting according to the Curriculum and Assessment Policy Statement (CAPS). /12/
- (c) Importance of Accounting career /10/

QUESTION 2

Teaching aids are classified under three categories such as the following:

Visual, audio-visual, and auditory. Apply each of these categories of teaching aids in your accounting classroom using the table below:

2.1

Category	Teaching aid type	Accounting topic	How will you use it
Visual			
Audio-visual			
Auditory			

2 x 9 = [18]

2.2

2.2.1 Meaning and Definition of LTSM [2]

2.2.2 Points to Consider when Choosing a teaching aid [5]

2.2.4 Why are they important in an accounting class [10]

QUESTION 3- [25]

3.1 Curriculum and Assessment Policy Statement (CAPS) also identifies the barriers to learning that teachers should be aware of so that they can have ways to mitigate them for effective teaching and learning. Identify at least three barriers to teaching and learning and suggest ways to mitigate them. [15]

3.2 As an educator, Discuss the challenges experienced by Grade 11 Accounting learners on Partnership Financial Statements and strategies to mitigate those challenges, (at least 3 fully explained challenges and their strategies).

Challenge $\sqrt{2} \times 3 = 6$ Strategy $\sqrt{2} \times 3 = 6$ [6 + 6 =12]

QUESTION 4- [25]

You have spent several weeks in a Secondary School on school experience. Regarding the Accounting classes you were involved with, discuss in detail the various desirable and undesirable aspects shown up during this period. What desirable aspects appealed to you and what undesirable aspects you discovered as being unacceptable?

Refer to the following:

- Teaching methods that you saw in use,
- Aspects of the class discipline
- Management of homework.

{25}
