**INSTRUCTIONS**

- 1. Answer three (3) questions ONLY.**
- 2. It is in your best interest to write clearly and legibly.**
- 3. Rely on relevant examples within and outside South Africa.**

1. Identify and discuss any four sustainable development goals using the lenses of a competent Human Settlement practitioner. Total [33.33].
2. Using the knowledge of Human Settlement discipline, discuss the link between the 2030 Agenda and Climate Change. Total [33.33]
3. Discuss the key challenges for ensuring food security in the urban and rural areas of South Africa using relevant examples as a reliable Human Settlement practitioner. Total [33.33].
4. Using your experience of Human Settlement practices, examine the strategies towards promoting food security amongst the poor urban households of Alice Town in the Eastern Cape Province of South Africa.  
  

Total [33.33]
5. With the aid of the quotation from FAO (2002) below, discuss strategies which can be employed to alleviate for shortages in most of the African countries.

“At the beginning of the New Millennium, close to 800 million people in developing countries, about 17% of their population, lack sufficient food to live healthy and active lives ---. The forecast for the future continues to be a cause for concern for serious concern” (FAO, 2002). Total [33.33].
