INSTRUCTIONS

Answer ALL the Questions

**QUESTION 4**

The evolution of mankind is like the evolution of communication. With the aid of examples, describe chronologically the stages involved in the development of communication [20]

**SECTION B**

**QUESTION 5**

Michael Tomasello is a developmental psychologist whose experiments with monkeys and human infants show that human beings are uniquely altruistic when compared with other animals.

List and explain the three interrelated attributes that set human beings apart from other animals. [10]

**QUESTION 6**

Communication research is crucial to all fields of studies for it seeks to provide tentative solutions to a problem or issues.

Identified and explain the 5 research methods in communication as a discipline [10]

**TOTAL 100**
