Historical Sketch

The South African Native College was declared open by the Rt. Hon. General Botha, in the presence of a large and representative gathering of Europeans and Natives on the 8th of February, 1916. Thus, after many years, the ideal of a College for the higher education of the Natives of South Africa reached the stage of working realization.

As early as the year 1878 Dr. James Stewart of Lovedale recognized that if the desire for education on the part of Natives continued to grow, sooner or later it would be necessary to provide an Institution which would give an education, under Christian auspices, of University standard. In November 1904, Dr. Stewart represented this view to the Inter-Colonial Native Affairs Commission, of which Sir Godfrey Lagden was President, and when this Commission reported in January 1905, the recommendation was made "that a Central Native College or similar institution be established and aided by the various States for training Native teachers and in order to afford opportunity for higher education to Native students."

On the 28th of December, 1905, a week after the death of Dr. Stewart, a convention of Natives from all the States of South Africa was held at Lovedale, under the presidency of the late Mr. J. W. Weir of King William's Town, to consider the steps that should be taken to give effect to the recommendation of the Inter-Colonial Native Affairs Commission. It was resolved to prepare a petition for presentation to the High Commissioner and the various Governments of South Africa, praying that an Inter-State Native College should be established.

In the years that followed much was done to enlist the sympathy of the Governments concerned and to obtain the support of the Churches and of the Native Races throughout the Sub-Continent. Much is due to the efforts of the late Hon. J. W. Sauer, General Sir C. P. Crewe, and Senator the Hon. Colonel Stanford. An Executive Board, appointed by the Conference of Representatives of the Guarantee Fund, met for the first time on the 3rd of October, 1907, under the Chairmanship of the Rev. James Henderson, M.A., Principal of Lovedale. The interest of the Natives in the scheme was manifested by the grant of £10,000 made by the Transkeian Territories General Council in the same year. The United Free Church of Scotland offered a site at Fort Hare as part of a contribution of £5,000, and other contributions were made or promised.

In 1908 a Select Committee on Native Education appointed by the Parliament of Cape Colony reported in favour of giving support to the Inter-State College, but owing to the large political questions engaging the attention of statesmen both before and after the passing of the Act of Union in 1910, the College scheme suffered delay.

Meanwhile, with the capital already available, a property adjoining the site at Fort Hare promised by the United Free Church of Scotland had been purchased. The whole formed a compact block with buildings suitable for staff housing and capable of adaptation to allow of the carrying on of the College until such time as permanent buildings might be erected. The site proposed for the future College Buildings was the historic one at Fort Hare, on which the lines, trenches, bastions and block-house of that important military station, the largest on the frontier, are still clearly visible. From the site the ground slopes away to the Tyumie River which girdles the lands now occupied by the College Farm.

In November 1914 an important step forward was taken when the Constitution of the College, which had been submitted in draft to the contributors and various bodies interested, was finally adopted. The Governing Council of the College, established under the Constitution, held its first meeting in January 1915, and took over the funds hitherto administered by the Executive Board. The Council decided that the site offered by the United Free Church of Scotland was suitable for the purposes of the College, which, in view of the incorporation in the Union of the various States interested in its foundation, was hereafter to be called "THE SOUTH AFRICAN NATIVE COLLEGE." The Government of the Union of South Africa pledged its support by promising an annual grant and appointed its representatives to the Governing Council, a step that was also taken by the University of the Cape of Good Hope and by the various contributing bodies.

In February 1916, as already noted, the College was declared open by the Prime Minister of the Union, and classes were inaugurated on the 22nd of the same month with a roll of twenty students, drawn from all the provinces of the Union and from Basutoland.

In 1917 the Governing Council approved of plans which had been prepared by the Public Works Department of the Union. The scheme makes provision for the gradual development of the College through a long series of years.

In 1918, the Union Government placed upon the loan estimates a sum of £10,800 for the erection of the middle portion of the main tuition block which the Governing Council unanimously agreed to associate with the name of Dr. Stewart. The loan was passed by Parliament and thus, in spite of the difficulty of war conditions, the erection of the first permanent building of the College was ensured.

In the same year the Wesleyan Methodist Church of South Africa, which had been interested in the scheme from its inception, determined in Conference to proceed immediately with the erection of the Hostel to accommodate students belonging to that denomination and, availing itself of opportunities provided by the Governing Council, resolved to transfer its Theological Seminary for Native Ministers to Fort Hare.

In 1919, the Administration of Basutoland intimated its intention of contributing an annual grant of £300 to the funds of the College, and of sending a representative to sit on the Governing Council of the College.

In 1920, the erection of the Wesleyan Hostel and Warden's Residence was begun and the Warden was appointed to the Staff. The Hostel was completed in 1921.

In the same year the Church of the Province rented a house as temporary hostel and the Warden was appointed to the Staff.

In 1920, also, the first portion of Stewart Hall was completed and taken over for teaching. This was opened by the Rt. Hon. F. S. Malan, Minister for Education, on the 8th day of January, 1921, in the presence of a large gathering of Europeans and Natives.

In 1923 the College was incorporated under the Higher Education Act (No. 30 of 1923). By this Act the Government of the Union of South Africa is entitled to nominate *four* representatives to the Council instead of *two*, while the Senatus, or Board of Studies, obtains *two* representatives for the first time. The Governing Council which had fashioned the policy of the College since 1916 and had seen it through the uncertainties of its early days held its last meeting on the 30th August, 1923, when certain alterations to the constitution, necessary to bring it into line with the provisions of the Act, were passed.

In 1923 the Presbyterian Hostel was erected on a site granted to the United Free Church of Scotland in 1919. It was occupied in February 1924.

In 1925 the Foundation stone of the Assembly and Dining Hall was laid by the Hon. the Prime Minister, General J. B. M. Hertzog, and an extension of Stewart Hall was undertaken.

In 1926, for the better prosecution of the Agricultural Training given at the College, an additional farm of 1,250 acres was purchased, and adequately stocked with dairy cattle. The College Farm land was thus brought up to a total of 1,600 acres (approx.) and room for expansion secured.

In 1926 also, £1,500, being the balance of a donation promised in 1926 on condition that £50,000 of capital was raised, was paid over by De Beers Diamond Syndicate.

In 1929 Dr. Henderson laid the foundation stone of the Student Christian Union, the cost of which had been borne by the Student Christian Associations of the United States and Canada. This hall was officially opened on 27th June, 1930, by Mrs. Max Yergan. It provides the headquarters of the Bantu Branch of the Student Christian Movement in South Africa, and is intended to afford a training ground for social workers.

On 19th July, 1930, Dr. Henderson, Principal of Lovedale, died. Dr. Henderson was elected first chairman of the Executive Board formed to promote the College scheme in 1907, and on the formation of the Governing Council in 1915 continued as chairman, an office which he held until his death. Dr. Henderson thus directed the promoting and governing bodies of the College for the first twenty-three years of its development.

In 1934 the Chamber of Mines gave £75,000 as an endowment for Native Medical Education and this was handed over to the College for that purpose by the Minister of Education (The Hon. J. H. Hofmeyr). In this year separate Departments of Botany and Physics were established, making a B.Sc. course possible.

In 1934 the building of the first portion of the Anglican Hostel was begun. This portion was completed in 1935 and officially opened on the 1200th St. Beda's Day (27th May) by H.E. the Earl of Clarendon, Governor-General of South Africa.

In March, 1936, the Coming-of-Age Celebrations were held at the College. On the same occasion Senator the Rt. Hon. F. S. Malan laid the foundation stone of the new Science Block for Chemistry, Physics and Medicine. This was named Livingstone Hall and declared open by the Hon. J. H. Hofmeyr, M.A., LL.D., on March 24th, 1937.

In December 1937 classes for the certificate of the Joint Matriculation Board were discontinued and, except for certain special

courses, the College teaching was confined to Post-Matriculation and Post-Graduate courses.

On November 8th, 1940, the Welsh Wing of Stewart Hall, which houses the Biological laboratories and lecture-rooms, was declared open by Senator the Hon. W. T. Welsh. Towards the cost of this the Natives of the Transkei gave £1,000, in recognition of the services of Senator Welsh as Chief Magistrate from 1920-1933.

After the Graduation Ceremony on April 5th, 1941, the new Women's Hostel ("Elukhanyisweni") was declared open by Mrs. Ballinger, M.A., M.P.

Henderson Hall, housing the Pim Library and the F. S. Malan Museum, was declared open after the Graduation Ceremony on March 28th, 1942, by Rev. A. W. Wilkie, D.D., C.B.E.

On September 20th, 1946, Lt.-Col. James Donaldson, D.S.O., founder of the Bantu Welfare Trust and donor of about £200,000 to African progress, laid the foundation stone of the Donaldson Wing of Stewart Hall, thus completing the original teaching block of the College.

During 1947 and 1948 extensions were effected to the Presbyterian, Methodist and Anglican Hostels, thus making provision for over 300 men students. A Dining Hall and additional bedrooms were completed at the Women's Hostel and were brought into use in 1949.

In June 1948 Dr. A. Kerr, Principal of the College since its foundation in 1916, retired. At the Graduation Ceremony many tributes were paid to the soundness of his leadership and service, and former students presented him with a chief's kaross and established a scholarship fund bearing his name.

In March 1949 Prof. C. P. Dent, who joined the staff in 1922, was appointed Principal.

In March 1951 the College became affiliated to Rhodes University in terms of the Rhodes University (Private) Act 1949. Prior to 1951 students of this College had taken the examinations for degree and certain diplomas of the University of South Africa. Though students of this College were technically external students of the University, the College latterly enjoyed many of the rights and privileges of a constituent College and most of the provisions applicable to internal students were applied to students of this College. (see Calendar of the University of South Africa 1950 at page 474).

At the beginning of 1951, a practising school, called the Jabavu Secondary School after Prof. D. D. T. Jabavu who was a member of the College staff from 1916 until his retirement in 1945, was opened to facilitate the training of students taking the University Education Diploma.

*Mr. S. G. Radebe, Certificate in Librarianship
(C.T.)*

1. The use of the library is free to all internal students and members of the staff of the S.A.N.C., Fort Hare, subject to their observing all library rules and regulations.
2. All students must apply to the library staff for library tickets at the beginning of each session : and must at the end of each session return all books and tickets issued to them.
3. Students may each borrow up to six volumes at a time ; but this number may be reduced at any time at the discretion of the Librarian ; students working for higher degrees may borrow additional books at the discretion of the Librarian.
4. The normal period of loan for books is a fortnight ; but (1) in the case of books much in demand the period of loan may be reduced, e.g. to one week or three days ; (2) certain books are placed on the reserved list and are not of open access to students ; these are lent for use in the library, and in many cases may be borrowed 'overnight' or for longer periods. (For the current definition of an 'overnight' loan, see notice board in library). Except in the case of loans 'overnight' or for use in the library only, the latest date for return will be marked on the date label inside each book.
5. Books shelved in the reading room section of the library are for quick reference within the building only ; they may be used without registration. For any other book, a ticket must be surrendered. No periodical may be removed from the rack without being signed for on the sheet provided at the issue desk. All periodicals should be returned to the staff for cancellation of such entries.
6. No book, periodical or paper may be removed from the library until its issue has been recorded by the librarian, and current numbers of periodicals will not be lent, though back numbers may be. Students returning books must wait to receive back their tickets.
7. The loan of a book may be renewed for a further period at the discretion of the Librarian, provided there is no waiting list for the book in question.

8. A student may request that a book be reserved for him, and his name may be entered on the waiting list for that book.
9. The fine for overdue books is 1d. the first day, and thereafter 3d. per day or part of a day ; for books lent ' overnight,' or for use in the library, and not returned at the end of the morning or afternoon as the case may be, 1d. per hour or part of an hour that the book is overdue.
10. The borrower of a book is held liable for any loss or damage to it occurring while it is issued out on his ticket. Books must not be transferred from one student to another without return to the library. Students must make quite sure that any damage done is noted by the library staff before they take books out. Books must not be passed through library windows. Tickets must not be borrowed or lent.

F. S. Malan Museum

This is primarily intended as an Ethnological study and research Museum, specializing in development of African customs and cultures, and in the influence of culture contacts on such development. At the same time it is open to all students and to the public, and the collection of material is inspected annually by a large number of interested visitors. The College is anxious to expand the work of collecting material which is rapidly disappearing and invites the cooperation of interested persons in assisting the College to build up its collection.

AFRIKAANS

Dit is 'n eenjarige kursus in Afrikaans alleen. Die kursus mag nie gevolg word deur kandidate wat by die Matrikulasie-eksamen, of 'n ander eksamen wat volgens die Senaat gelykstaande is, in Afrikaans op die Hoër Graad geslaag het nie. Krediet sal nie gegee word vir sowel Afrikaans as die eerste kursus in Nederlands-Afrikaans nie, maar 'n student wat 'n eerste klas in die eksamen in Afrikaans behaal het, mag, met die goedkeuring van die Hoof van die Departement, voortgaan met die tweede kursus in Nederlands-Afrikaans.

Studente wat voornemens is om later die graad LL.B.—te haal, en wat by die Matrikulasie-eksamen op die Laer Graad geslaag het, word sterk aanbeveel om die kursus Nederlands-Afrikaans te volg. Sodanige kandidate word versoek om die hoof van die Departement te raadpleeg oor die taalvereistes vir LL.B.

Die eenjarige kursus in Afrikaans is meer te doen om studente 'n geleentheid te bied om hulle Afrikaans te verbeter.

Outline of European History 476-1763.

Recommended Texts : Fisher : History of Europe

Rayner : European History 1648-1789.

History II. Two papers.

Paper 1 Europe 1763-1830

Paper 2 Europe 1830-1914

Recommended Text : Grant and Temperley : Europe in 19th and 20th Centuries.

History III. Four papers.

Paper 1 English Constitutional History 1660-1911

Paper 2 1952 Europe 1830-1914

1953 British Colonial Policy

Paper 3 S.A. History 1652-1910

Paper 4 S.A. History—Documents.

Recommended Texts :

Keir : Constitutional History of Modern Britain

Grant and Temperley : Europe in 19th and 20th Centuries

Walker : History of South Africa

Eybers : Select Constitutional Documents

HYGIENE

Course I.

- (1) *Personal and Environmental Hygiene* including
 - (a) Nutrition (b) Domestic and School Hygiene (c) Drinking water (d) Sanitation, Housing and Town Planning (e) Air and Climate (f) Disinfection and Disinfestation.
- (2) (i) *Food Hygiene* including (a) Milk production and products (b) Meat Inspection (c) Other foodstuffs and (ii) *Food Production* including elementary principles of agriculture (plant, animal and soil).
- (3) *Industrial Hygiene* and *Public Health Law*.
- (4) *Elementary Pathology, Bacteriology* and *Parasitology*.
- (5) *Vital Statistics*.
- (6) *History of Personal and Environmental Hygiene*.

Practical :

- (1) **First Aid.** Demonstrations of matters relating to personal hygiene and disease. Malnutrition and dietetics. School medical inspection and feeding.
- (2) Visits to Cowsheds, Dairies, abattoirs (6 visits), food shops food processing plants and factories. Demonstrations of Communal catering and kitchen hygiene. Food and milk sampling.
- (3) Agricultural methods and practical food production.
- (4) Visits to (a) factories (b) Nuisances and Offensive trades (c) Sources of water and purification plants. (d) Refuse disposal and sewage works.
- (5) Demonstrations of (a) Ventilation (b) Disinfection and Disinfestation (c) Use of Katathermometer and meteorological instruments.
- (6) *Laboratory Work* : Chemical and Physical properties and analysis of food stuffs, milk, drinking water and sewage effluent.
- (7) *Report Writing*.

Course II.

1. *Control of Communicable Disease* including relevant sections of the Public Health Act and Regulations. Certain diseases to be studied with special reference to (a) epidemiology (b) recognition, salient signs and symptoms and collection of laboratory

specimens (c) mode of transmission and prevention, effects
Morbid Anatomy and histology.

2. *Pathology*—Nature of disease. Inflammation and Repair.

3. Advanced hygienics—(a) Sociological (b) Maternity and Child Welfare (c) Health Administration (d) Health Education.

4. Statistical Methods with special reference to epidemiology

5. Bacteriology, parasitology and entomology.

6. History of (a) bacteriology (b) development of social medicine with special reference to Britain during the last 150 years.

Practical :

1. Visits to Hospitals, Public Health departments, Health Centres, Infant Welfare Clinics, factory welfare and organizations concerned with social work. Demonstrations of pathological processes, their clinical effects on patients.

2. Laboratory techniques and practice; Care of Microscope and laboratory animals. Preparation of media and apparatus. Systematic practical study of micro-organisms, helminths and arthropoda of P.H. Importance. Collection of pathological material, examination and diagnosis, Bacteriology of soil, food, water and disinfectants. Testing of insecticides and antibiotics.

MATHEMATICS

COURSE I.

Algebra :

Progressions and summation of series ; Permutations and Combinations ; Elementary probability ; Binomial Theorem for any index—statement and applications ; Elementary theory of equations involving the relations between roots and coefficients ; Elementary transformations ; Graphs of rational functions.

Trigonometry :

Ratios of compound and multiple angles ; Solution of triangles ; solution of equations ; Inverse circular functions ; Radian measure Limits and approximations.

Pure Geometry :

Similar triangles ; Theorems of Ptolemy, Ceva and Menelaus ; Simson's line, Apollonius' circle ; Occurrence theorems on the triangle ; Harmonic section ; Pole and Polar ; Inversion ; Radical axis, co-axial and orthogonal circles ; Solid geometry sufficient for work in solid co-ordinate geometry.

University of Fort Hare

Together in Excellence

Calculus :

Differentiation of elementary functions ; Elementary integration including elementary integration by substitution and by parts ; Maxima and minima ; Areas bounded by plane curves ; Volumes of solids of revolution by integration.

Coordinate Geometry : The Straight Line and Circle.

COURSE II.

Algebra :

Determinants ; Matrices ; Theory of equations (Sturm, Descartes, Newton and Horner) ; Theory of the cubic.

Trigonometry :

Complex numbers : The Argand diagram ; de Moivre's theorem and applications.

Geometry :

Transformation of axes ; The geometry of the Parabola, Ellipses, Hyperbola ; Polar equation of the conic ; Coordinate geometry in Three dimensions of the plane, straight line, sphere and spheroid.

Calculus :

Exponential, logarithmic and hyperbolic functions ; Successive Differentiation ; Leibniz' Theorem ; The Taylor and Maclaurin Expansion formulae ; Calculation of limiting values ; Elementary partial differentiation : Curvature ; Geometry of the catenary ; Integration ; Areas and volumes ; Approximate integration ; Differential equations of the first order and first degree, reduction formulae :

*COURSE III.**Algebra :*

Convergence ; series of complex terms ; functions with complex argument.

Geometry :

General equation of 2nd degree in two dimensions ; Oblique axes and invariants ; Surfaces of the 2nd degree ; the discriminating cubic.

Calculus :

More advanced work including Taylor and Maclaurin's expansions with one or more variables ; Remainder formulae ; Riemann integral ; Double integrals ; Beta and Gamma functions The linear differential equation of 2nd order ; Equations of the first order not of the first degree ; p and c discriminants. ; continuity and differentiability of functions of one variable.

Post-graduate course—see head of Department.

*BOOKS :**COURSE I.*

1. Modern Geometry by Godfrey and Siddons.
2. Tutorial Algebra by Briggs and Bryan.
3. Elementary Trigonometry by Bochart and Perrot.
4. Elementary Calculus by Bowman.
5. The Right line and Circle by Briggs and Bryan.

COURSE II.

1. Advanced Algebra by Durell.
2. Advanced Trigonometry by Durell and Robson.
3. Elementary Calculus by Bowman.
4. Coordinate Geometry by Grace and Rosenberg.
5. Analytical Geometry by Grieve.

COURSE III.

1. Coordinate Geometry or three Dimensions : Bell, or Grieve.
2. Differential Equations. Piaggio or Ince.
3. Calculus. Pure Mathematics . . Hardy.
4. Elements of Differential and Integral Calculus. . Granville, Smith, and Longley.
5. Other References . . see Course II and Library.

NEDERLANDS EN AFRIKAANS

See Rhodes University Calendar.

An elementary introduction to Philosophy and more detailed treatment of—the nature of philosophical enquiry, Matter and its appearances, Spatial and Temporal Order, Life and Mind in the universe, Thought and Knowledge, Induction, Value, the philosophical vocabulary, language. Stress will be laid on the elements of Logic.

Textbooks—*Plato* Republic I-IV, *Russell* : Problems of Philosophy, or *Hoernle* ; Idealism, *Stebbing* ; A short introduction to Logic The following books may be used *Joad* : Guide to Philosophy, *Burnet* : Thales to Plato.

COURSE II.

1 *Logic*. Will deal principally with Terms, Definition, Propositions, Immediate and mediate Inference, Induction and its presuppositions, the Law of Causation, Mathematical reasoning, Scientific method, Abstraction and Generalisation, Character of Logical thinking, brief treatment of present-day logical theory.

Textbooks—*Chapman and Henle* ; The Fundamentals of Logic *Stebbing* ; A modern introduction to Logic, *Bosanquet*, The Essentials of Logic, *Joseph* : Introduction to Logic 2 *British Empiricism*—Locke, Berkeley Hume (with preliminary study of Bacon and Hobbes). Texts in Scribner's Students Library and Everyman Series.

COURSE III.

1—Kant ; Theory of Knowledge and Moral Doctrine.

Textbooks : Critique of Pure Reason and Critique of Practical Reason.

2—Same as in Philosophy II.

3—Special subject for 1952 (a) A detailed study of Locke's Essay, Bk. 2 and of selected portions of Bks. 3 and 4.

or (b) Scepticism (Greek origins, sceptical trends from the Renaissance onwards with special study of Pragmatism and, its derivatives especially refer to William James, Dewey, Ayer).

PHYSICS*Course I.*

Elementary mechanics & hydrostatics without the use of calculus. Surface tension of liquids ; Young's modulus ; Hooke's law.

Thermometers of various types. Expansion. Elementary Kinetic theory of gases. Nature of heat. Latent heats and vapour pressure. Conduction, convection and radiation.

Photometry. Reflection, refraction, dispersion.

General characteristics of sound. Transverse & longitudinal waves. Resonance and forced vibration. Doppler principle.

Elementary treatment of magnetostatics and electrostatics. Earth's magnetic elements. Ohm's law, Wheatstone's principle potentiometer (straight wire.) Magnetic effects of electric current. Electrolysis. Primary & secondary cells. Descriptive account of electromagnetic induction & alternating currents.

Practical work on the course outlined.

Text-books : Intermediate Physics by R. A. Housetoun.

Electricity and magnetism by Starling.

Heat by R. G. Mitton.

Courses II & III.

See Rhodes University Calendar.

PHYSIOLOGY*Course I.*

Lectures to cover the following aspects of the subject :

Structure and Physico-chemical basic of physiological processes. Nature and properties of the contractile tissues, the central nervous system, the autonomic nervous system.

The physiology of sensation. The chemistry of the body and

the nature of foods, dietetics and nutrition. The digestive system the excretory system. Chemical, physical and histological aspects of the blood, lymph and other body fluids. The heart and circulation, respiration. Endocrinology and reproduction.

Practical Work.

1. Histology of the tissues and organs of the human body.
2. Experimental physiology
 - a. Animal. Investigation of the properties of muscle and nerve of frog Observations on the properties of the frog heart Observations on the properties of smooth muscle.
 - b. Human. Investigation of the properties and constituents of blood.

Investigation of the circulatory and respiratory systems.

Investigation of the nature of the sensations and reflexes.

3. Physiological chemistry.

Chemical investigation of the elements contained in physiological compounds. Investigation of the properties of the digestive juices and the nature of enzyme action. Investigation of the blood. Investigation of urine.

University of Fort Hare

Course II.

Together in Excellence

Lectures to cover the work of the first course in greater detail with special reference to the integration of the physiological functions and to certain selected fields.

Practical work.

1. Experimental physiology
 - a. Animal. Investigation of the mammalian circulatory, respiratory excretory and nervous systems.
 - b. Human. The work of the first course in greater detail with emphasis on technical precision.

2. Physiological chemistry.

Quantitative examination of blood and urine. Conduct and observation of nutritional experiments.

POLITICS

Course I. (normally taken in second year).

1—Scope of politics and its relation to Ethics, Sociology, Economics and History. Outline history of political ideas with special reference to Plato, Aristotle, Hobbes, Locke, Rousseau, Bentham, Mill, Hegel and Marx.

2—Institutions of Government—Concepts of sovereignty, types of Constitution, the theory, constitutional machinery and practice of the democratic state.

Text-books—Sabine : History of Political Theory

Joad : A guide to the Philosophy of Morals and Politics

Strong : Modern Political Constitutions

Weldon : States and Morals

Course II.

1—History of political ideas including a critical study of the following works—

Aristotle : Politics

Rousseau : The Social Contract

J. S. Mill : On Liberty

Marx and Engels : The Manifesto of the Communist Party

2—Comparative study of political theory and practice in the British Commonwealth and U.S.A.

3—The institutions of international cooperation The Hague Court, League of Nations, International Labour Office, United Nations Organisation

PSYCHOLOGY

Course I.

Three lectures a week and 2 hours practical per week.

Examination consists of one written paper, 3 hours.

(a) Introduction to General Psychology :—

Origin and scope of Psychology : Methods. Sense organs, effector organs, nervous system.

Heredity, environment, maturation as factors in psychological development.

Innate modes of reaction (tropisms, reflexes, instincts).

Conditioning and Behaviourism. Theories of motivation : instincts needs, drives, emotion sentiments and formation of character : will : measurements of personality traits.

Cognition, basic processes : perception ; learning, habit, formation, memory, economy in learning ; attending.

Ability, intelligence, aptitude : nature and measurement.

(b) Experimental work on topics related to above.

Text-book : Munn, N. L. : Psychology.

Course II.

Five lectures and 3 hours practical per week.

Examination consists of two written papers.

A. General Psychology. B. Vocational Psychology. C. Development Psychology. D. Social Psychology. E. Abnormal Psychology. F. Statistics and Experimental Work. G. Experimental Work.

Textbooks : Munn, N. L. : Psychology

Bingham : Aptitudes & Aptitude Testing.

Munn, N. L. : Psychological Development.

Young, K. : Personality & Problems of Adjustment.

Fisher, V. E. : Introduction to Abnormal Psychology.

Milton Smith, G. : Simplified Guide to Statistics.

Course III.

Five lectures and 6 hours practical per week.

Examination consists of three written papers.

a. General Psychology. b. Development Psychology. c. Social Psychology. d. Abnormal Psychology. e. Applied Psychology either (1) Clinical Psychology or (2) Industrial Psychology. f. Statistics. g. Experimental work.

Constitution for the Students' Representative Council

Preamble.

Under the Constitution of the College, the superintendence and regulation of the instruction and discipline of the College, in the several departments of the College, is vested in the Senate. (Chap. IV of the Constitution.)

The Students' Representative Council, acting under the Constitution given below, which has been approved by the Senate and confirmed by the Governing Council, is a suitable body to be consulted on matters affecting the students, and to assist the Senate in carrying out its regulative and disciplinary duties.

I. Name.

The name of the body hereinafter referred to as the Council is, and shall be, the SOUTH AFRICAN NATIVE COLLEGE STUDENTS' REPRESENTATIVE COUNCIL.

II. Powers and Duties.

Subject to the powers reserved to the Senate, as laid down in the constitution of the College, the Council shall be empowered and required :

- (a) To represent student opinion to the Senate on any matters delegated to it by the student body, and to negotiate with the Senate on any issues especially affecting the life of the students of the College.
- (b) To make recommendations to the Senate on the following matters :
 - (i) The control of recognised Students' Societies and Clubs.
 - (ii) The recognition of Students' Societies and Clubs.
 - (iii) The granting of permission for special student activities and performances inside and outside the College.
- (c) To exercise regulative powers over Students' Societies and Clubs, and to act as a first court of appeal whenever irregularities arise in such Societies and Clubs, the Senate being the final court of appeal.
- (d) To enquire into, and to deal with in approved ways, as laid down in the First Schedule attached to this Constitution, or to report to the Discipline Committee of the Senate,

breaches of discipline committed by students. The person or persons concerned shall have the right of appeal to the Senate.

This power shall not be construed as derogating in any way from the existing right of the Discipline Committee or of the Senate to deal directly with cases which come to its notice.

- (e) In co-operation with the Publications Committee of the Senate, to be responsible for the College Magazine and other students' publications.
- (f) In conjunction with the Boarding Master, to be responsible for orderly conduct in the Dining Hall.
- (g) To control the expenditure of the *per capita* allowance made by the Governing Council for the running of Students' Societies. All payments made on behalf of the Council, either by cash or by cheque, shall be executed and signed by the Treasurer, the Secretary and the President.
- (h) To receive and forward to the Registrar, for the Senate's approval, the constitutions of Societies and Clubs seeking recognition. One copy of each constitution, as finally approved, shall be kept on the files of the Council, and one copy shall be sent to the Registrar.
- (i) To receive, through the Secretary of the Council, Minute Books of all Societies and Clubs at the end of each academic year. The Secretary shall then deposit these Minute Books with the Registrar for safe-keeping during the vacation, and shall receive a receipt for them.
- (j) To organise all students' functions, in which connection the Council shall appoint an Entertainments Committee, which shall not necessarily consist only of members of the Council, for any or for all of the functions, to act in accordance with the powers and duties that may be conferred on it.
- (k) Subject to time and place being approved by the Principal, to convene general meetings of students at least once a term, or upon the receipt by the Council of a requisition signed by not fewer than 20% of the students, or, if requested in writing, by not fewer than four members of the Council, a meeting may be held.

III. Membership and Elections.

- (a) The Council shall consist of TEN members, SIX of whom shall be elected by the student body at a general meeting of students called for the purpose. The remaining

FOUR vacancies shall be filled by representatives from the different Hostels, ONE from each Hostel. Members shall be elected for one academic year.

- (b) Elections of members of the Council shall take place on the first Friday of the academic year.
- (c) All students, except those of less than one session's standing in the College, shall be entitled to vote, and shall be eligible for any office.
- (d) A Returning Officer, assisted by scrutineers, all appointed by the Senate, shall conduct the elections of the members of the Council for the year, except in the case of a Hostel election, where the Warden shall act as Returning Officer.
- (e) The method of voting shall be by secret ballot as indicated hereunder :

- (i) Voting papers shall be issued to all students entitled to vote.
- (ii) Each voter shall write in BLOCK CAPITALS the names of the SIX candidates he/she wishes to represent him/her in order of preference. Voting papers with less than SIX names shall be regarded as "spoilt papers." Each name shall count as one vote.
- (iii) The returns from the first ballot shall be scrutinised by the Returning Officer and his assistants, and only those candidates who secure a sufficient number of votes, determined for each election on the principle illustrated in the Specimen Procedure given below, shall be regarded as nominated candidates for the second ballot.

Specimen Procedure :

- (1) The Returning Officer and his assistants shall count the number of ballot papers returned, and any candidate receiving a number of votes in excess of half the number of ballot papers shall be declared elected.
- (2) The names of other students who have received votes will be arranged in order of the number of votes received, and the list so prepared will be examined by the Returning Officer and his assistants who shall add all votes from the bottom of the list upwards until a point is reached at which this total, plus the number of votes recorded for the student next above that point on the list would exceed half the number of ballot papers returned. Names below this

point shall then be discarded, and the names above it be printed on the board as having been nominated for the second ballot.

- (3) This procedure shall be continued until the number of votes cast for each of six candidates shall exceed half the number of ballot papers returned.
- (4) At a Hostel election, for ONE candidate, each voter shall have ONE vote, and each vote shall count 1. The procedure shall, otherwise, follow the same principle as for the general election.
- (f) The Officers of the Council shall be elected by the Council, from among its members, not later than the first Friday following the completion of the elections for membership, and shall consist of a President, a Vice-President, a Secretary and a Treasurer. The procedure for each office shall be as for a Hostel election, under a returning officer appointed by the Senate.
- (g) Should a vacancy, or vacancies, occur in the Council, the vacancy, or vacancies, shall be filled by the constituency whose representative, or representatives, have ceased to be members of the Council. The method of election shall be as laid down above, except that for such elections no vote shall count more than 1.
- (h) The members of the Council, and all committee members, censors, etc., appointed during its tenure of office, who return to College at the beginning of the following year, shall continue in office until replaced by new elections and appointments. When no Executive Officers of the Council, or of a committee are returning, the Council shall arrange for the appointment of temporary officers to hold office until replaced by the new elections.
- (i) The Council may, by a two-thirds majority, decide that one of its members has been guilty of a misdemeanour, and suspend him from office until his case has been referred, for re-election or replacement, to his/her electorate. Such re-election or replacement shall be by secret ballot, as provided for filling a vacancy on the Council.

IV. Meetings of the Council, and duties of its Officers.

- (a) The Council shall meet at least once in each calendar month of the academic year and on such other occasions as a majority of the Council (or "of the Executive, defined in Clause V. (a)") shall determine.

- (b) At meetings of the Council 5 members shall constitute a quorum, provided every member has been given due notice of the meeting.
- (c) The Secretary shall summon all meetings of the Council, and shall send, in the case of each meeting, except as hereinafter provided, a notice of such meeting, together with a copy of the agenda, to each member not later than 24 hours before the time fixed for such meeting. Emergency meetings (i.e. meetings in respect of which the above period of notice may be dispensed with) may be called with the consent of seven members of the Council, or with the permission of the Principal, provided that notice of such meeting is given to all available members of the Council before the meeting is held.
- (d) The President shall normally take the chair at all meetings convened by the authority of the Council. In his absence the Vice-President shall take the chair, and in the absence of both these officers, the chair shall be taken by a student appointed by Council.
- (e) At all meetings of the Council, or of its Executive Committee (V.a.) and at all meetings convened under the authority of the Council, the Chairman shall have, in addition to his ordinary or deliberative vote, a casting vote in the event of an equality of votes.
- (f) The Secretary shall keep, and have charge of, all the Council's records, and shall conduct its correspondence. He/she shall keep minutes of all meetings of the Council, of its Executive Committee, and of all general meetings of students.
- (g) The Secretary shall be responsible for posting, on the official notice boards, all notices required under the Constitution of the Council, or by any regulation made by the Council in accordance with its Constitution.
- (h) The Treasurer shall keep an account of all expenditure incurred by the Council. At the end of each session he shall draw up a statement of receipts and expenditure, and have his/her books audited by an auditor appointed by the Senate. The audited statement shall then be presented to the Secretary of the Senate.
- (i) Estimates for each session shall be submitted to the auditor who shall have power to refer them back to the Council if

- (i) They do not conform to the purposes for which the grant has been made by the Governing Council ;
 - (ii) They exceed the value of that grant.
- (j) At the beginning of each session the Secretary shall obtain, from the secretaries of Societies and Clubs, programmes of society meetings and functions planned for the session and shall submit a general programme for the session to the Secretary of the Senate.

V. The Executive Committee of the Council.

- (a) The Officers elected under Clause III. (f) of this Constitution shall form an Executive Committee of the Council.
- (b) The Executive shall deal, on behalf of the Council, with matters referred to it by the Council.

VI. Societies and Clubs.

- (a) The elections of all Officers and Committees of Societies shall take place before the end of the first week in March of each year. The Council shall appoint Returning Officers for these elections.
- (b) Only those students who have signed the membership lists of a Society or Club, and shall be of at least one session's standing in the College, shall be entitled to vote in the election of the Officers and Committee Members of that Society or Club. Signing the membership list shall be regarded as an undertaking to partake in the activities of that Society or Club, and to accept its discipline.
- (c) The members of all committees shall be elected to office for one academic year.
- (d) The information required by the Secretary of the Council and by its Treasurer to enable them to comply with the requirements of Clauses IV. (h) (i) (j), of this Constitution shall be sent to the Council at the beginning of each session.
- (e) At the beginning of each year each Student Society shall invite a member of staff to be President of the Society for the year, and upon receiving his/her consent shall request the Council to recommend his/her name to the Senate for appointment as President.

VII. The Athletic Union.

- (a) The Athletic Union Committee shall consist of ONE representative of EACH of the recognised sporting clubs, TWO representatives of the Council and TWO members of Staff, appointed by the Senate.

- (b) The officials of the Athletic Union shall consist of a Chairman, and a Secretary, who shall be elected at the meeting of the Athletic Union Committee, convened by a Returning Officer appointed by the Council, and of a Treasurer, appointed by the Senate.
- (c) The Committee of each Club shall act as a court of first instance for cases arising out of its activities. An appeal will lie to the Athletic Union Committee, with a final right of appeal to the Senate.
- (d) The Athletic Union Committee shall control the *per capita* grant for sports, which shall be expended through its Treasurer.
- (e) The Secretary of the Athletic Union Committee shall receive from the committee of each sporting club an estimate of its expenditure for the year, and its fixture list, in time for these to be discussed by the Athletic Union Committee before the end of March.

VIII. Amendments to this Constitution.

Proposed amendments or additions to this Constitution may be submitted to the Senate for approval, provided such proposals are supported by a two-thirds majority of authorised voters present at a general meeting called for the purpose. Notice of a general meeting called for this purpose, with a statement of the amendment proposed, must be posted on the official notice board, by the Secretary of the Council, at least fourteen days (14 days) before the date fixed for the meeting.

First Schedule.

As provided under Clause II. (d) of the Constitution, the Council may impose penalties as specified below :

- (a) Gating.
- (b) Suspension from participation in College Students' functions, such as dances, concerts, etc.
- (c) Fines not exceeding 5/-.

Report of the Governing Council

FOR THE YEAR ENDING 31ST DECEMBER, 1950.

The Hon. The Minister for Education, Arts and Science,
Sir,

We have the honour to present the report of the Council of the South African Native College for the year ending 31st December, 1950.

1. *Membership of the Council* : The three-year term of office of members of the Council came to an end on the 31st December 1949, and several changes were made in the election of the Council for the period January 1st 1950 to December 31st 1952.

Professor R. W. Varder, who was nearing the age of retirement and Professor J. Smeath Thomas, who had relinquished his position as Master of Rhodes University College, both resigned. Dr. T. Alty, the new Master of Rhodes, and Professor M. Wilson were appointed to represent the University of South Africa.

Councillors R. G. Ntloko and R. Soshankana resigned, their places as representatives of the United Transkeian Territories General Council being taken by Councillors A. Mfebe and S. Majeke.

Former students of the College elected Mr. O. R. Tambo in place of Mr. D. G. S. Mtimkulu, who was returned as Secundus to Mr. Tambo. Later in the year, however, Mr. G. W. Caley resigned his appointment as Representative of Native Secondary Education and Mr. D. G. S. Mtimkulu was elected a full member of Council in his place.

The Rev. H. C. N. Williams, representing the Church of the Province of South Africa, resigned, the Ven. Archdeacon W. S. Hall being appointed in his place, and in November 1950 the Rev. E. W. Grant, who was relinquishing his post as Principal of Healdtown Missionary Institution sent in his resignation, his place as representative of the Methodist Church of South Africa being taken by the Rev. W. W. Shilling.

The only other changes were the annual changes in the representatives appointed by the College Senate.

The Rev. Dr. R. H. W. Shepherd and Mr. J. M. Brink were elected Chairman and Vice-Chairman, respectively, of the Council.

The following minutes have been passed :

" The Council of the South African Native College wishes to record its appreciation of the service rendered to the College by Prof. R. W. Varder. His direct association with the College dates back to November 1924, when he came to examine the practical work of the first students to take University Examinations in Physics at Fort Hare. He continued to visit the College annually as Examiner in Physics until 1937 ; his visits were always a source of pleasure and encouragement to the staff in that Department, and he gave a great deal of valuable advice about the development of that Department and the plans for the new laboratories. During those years he became increasingly interested in the work of the College and increasingly aware of its importance in South Africa. In 1935 he was appointed to membership of the Council to fill the vacancy created by the death of Professor Ewing on December 2nd 1934, and he continued to represent the University on the Council until December 31st 1949. Throughout his membership he was most faithful in attendance, and he brought to the service of the Council a wide and intimate knowledge of University standards and procedures. The value of his contributions to the deliberations of the Council was acknowledged when, on the resignation of Mr. O. B. Bull at the end of 1945, he was elected Chairman for the unexpired portion of Mr. Bull's term of office, and re-elected for the following full term. The Council extends to him its thanks for the time spent and the work done in the interests of this College, congratulates him on a life well spent in University Education, and trusts that his years of retirement will be filled with peace and contentment."

" Professor J. Smeath Thomas was first appointed to the Council as one of the representatives of the University of South Africa for the period January 1944 to December 1946, and was reappointed for a second three-year period. His understanding of University work and University Administration was placed freely at the service of the College, and throughout his membership his word in Council carried a great deal of weight. Throughout the early discussions on the probable affiliation of the College with Rhodes, when it became Rhodes University, he showed sympathetic understanding of the aspirations of the College, and helped prepare the basis upon which the College is now to be

affiliated to Rhodes University. The Council now records its thanks to Professor Smeath Thomas for his valued service to the College."

Councillors R. G. Ntloko and R. Soshankana had represented the United Transkeian Territories General Council since 1947, being regular in their attendance, and showing a sustained interest in the work of the Council and the welfare of the College. The thanks of the Council are due to them and are here recorded.

The Rev. H. C. N. Williams, being himself fully occupied, as Warden of St. Matthew's College, in African Education, had a direct interest in the work of the College, not only because it was part of the great work to which his own powers were being given, but also because of his personal interest in the progress of those of his own past students who were admitted to membership of its student body. A sensitive, scholarly man, and a fluent speaker, he valued scholarship in all its forms, but valued more those intangible gifts of the spirit without which mere learning is an empty thing. In his service to the College, during his six years' membership of the Council, and two years' membership of its Executive Committee, he kept before him the hope of the Founders that this College should be a great Institution of Higher Education Christian in spirit and purpose. The Council records its gratitude to him for his share in its work.

The Rev. E. W. Grant spent nearly twenty years in Missionary work among the African people in and around Johannesburg, where, in addition to his normal Church work, he organised night schools and started the Bantu Social Centre connected with the Methodist Church. In 1932 he was invited to become the first Head of the new established Lovedale Bible School, and his acceptance of that appointment brought him into close association with the College. He and Mrs. Grant very soon made close friends among the members of the staff, he took his turn at conducting College services, he became a member of the Wesley House Committee of Management, and Fort Hare won a big place in his heart. In 1936 he was appointed Secundus to the Rev. A. A. Wellington, representing the Methodist Church of South Africa, and from then on regularly attended Council Meetings. After Mr. Wellington's death, towards the end of 1944, Mr. Grant became Principal of Healdtown Missionary Institution and a full member of Council, succeeding Mr. Wellington also as a member of the Executive Committee. Genial and warm hearted, he made many friends, and held their affection

proud of his membership of the Methodist Church, of which he was appointed President for 1949, he yet had a wide vision of the unity of the Christian Church, and took an active and prominent part in the work of the Christian Council; zealous in the cause of African Education, he gave freely of his wisdom and his strength to its development. This College gratefully acknowledges its great debt to him for a large variety of services, and trusts that in the new and, it is hoped, less onerous duties of his new appointment at the Methodist Book Room in Cape Town he may find peace and contentment in years of service to Christ and his fellowmen in South Africa.

2. *Staff*: The Council records with deep regret the death of Mr. Gladstone Llewelyn Letele, Lecturer in African Languages. As a student of this College, with a reputation for sound work and excellence of character, he qualified for a Bachelor's Degree in Arts in 1937. After a period of teaching at Adam's College, in Natal, he was admitted in 1939 to the School of African Studies at the University of Cape Town, where he studied African and European Languages under the guidance of Professor Lestrade and qualified for the Degree of Master of Arts at the end of 1940. At the beginning of 1941 he joined the staff of this College as Lecturer in Sotho and Tswana, and was also placed in charge of a temporary Hostel for men, known as the Annex. After six years of fine work here he was given unpaid leave to take up a temporary appointment in the School of Oriental and African Studies of the University of London, and to study for the degree of Doctor of Philosophy. He returned to his appointment here in April of this year, and was warmly welcomed by the College, which looked forward to years of valuable service from him, but on the afternoon of Friday, the 29th of September, he suddenly and quite unexpectedly collapsed and died within a few minutes of coronary thrombosis.

He was a man of exceptionally fine spirit, objective and non-partisan in his judgements, a man of goodwill, deeply respected by his colleagues and students; he was a man also of exceptionally fine scholarship. Earlier in his career Professor Lestrade wrote of him as having undoubted gifts, adding that his thesis, for the M.A., was turning out an excellent piece of work and that he had seldom met a man with a better theoretical and practical sense for language. Just before he died he had the satisfaction of receiving private information from a friend in the University of London, information which he passed on only to his wife, that the

Doctorate thesis he had submitted there had been accepted. His untimely death has been a very serious loss to the College and is deeply regretted.

His successor has not yet been appointed.

Miss E. E. Frederick, Lecturer in Bacteriology, resigned her appointment on the 31st December, as she was to be married after the end of the College session. She has given two years of excellent willing service to the College in a post that is very difficult to fill. We regret her resignation, and would like to see someone like her taking her place, but wish her prosperity and happiness in her new life.

Mr. C. R. Palm, after serving the College well for six years as Senior Technician in the Department of Physiology, accepted a similar appointment in the University of the Witwatersrand as from January 1st 1951.

Miss D. A. Mamabolo left after two years' service as Assistant Librarian, and two temporary appointments, that of Mr. L. J. Dry as Lecturer in Chemistry, and of Mr. R. Makepeace as Lecturer in Psychology, terminated on the 31st December. They did fine work in responsible positions.

To these ex-members of staff the Council expresses its thanks for their service to the College.

New appointments made before the end of the year are: Professor P. van der Stichele, from Huguenot College, as Senior Lecturer in Chemistry, Mr. D. Z. de Villiers as Senior Lecturer in Psychology and Mr. S. Radebe as Library Assistant.

The only member of staff on leave during the year was Professor A. S. Galloway, who was granted leave for July, August and September. Mr. Dry and Mr. Burgess undertook the additional lectures and other work during Prof. Galloway's absence, and though they were kept excessively busy, the results of the November examinations show that the work was well done.

7. *Roll and Accommodation :* The average number of students in residence was 365 ; there were in addition 11 oppidans, residing in their own homes or with near relatives.

8. *Finance :* After making provision for depreciation of capital equipment, loan redemption and reserve for doubtful debts, our audited accounts reflect a credit on General Account of £2789 3s. 11d., and a debt on Medical Aid account of £1542 15s. 10d., resulting in a net surplus for the year of £1246 8s. 1d. Last year the loss on the two accounts mentioned amounted to £4976 10s. 1d. In the early part of 1950 we received a sum of £3605 on account of additional grants for 1948 and 1949 and this has contributed to the favourable balance at the end of last year.

The loss on the Women's Hostel amounted to £620 15s. 6d. For 1949 these figures were £824 15s. 5d.

On the Dining Hall there was a loss of £457 6s. 8d., which compares with £481 6s. 9d. for the previous year.

Farming operations show a profit of £450 8s. 10d., as against a loss last year of £1245 1s. 9d.

At the end of 1949 our Capital Account stood at £141,320 13 4d and as at 31st December last, the amount had increased to £142,895 8s. 7d.

Buildings and land, not including Men's Hostels, stand in the books at £157,297 14s. 11d. These were valued in 1949 for insurance purposes at £213,000, and our equipment is estimated to be worth £40,625. In addition farm buildings are valued at £3442.

General : The demand for a deposit on application for admission, and for information about each student's ability to pay

the fees if no bursary is awarded, reduced the number who fail to arrive after being admitted almost to zero, and the hostel accommodation available was fully occupied. Many classrooms and all the laboratories, except those of the Departments of Hygiene and Physiology, were filled to well beyond what can be regarded as their reasonable capacity, a situation made possible only by the willingness of the staff to work under difficult conditions. There is an urgent need for an increase in accommodation over a wide range of College activities, and a considerable sum of money must be found if the development of the College is to continue.

The health and conduct of the students has on the whole been good ; better seasons have made possible an improvement in the supply of fresh vegetables to the Dining Halls ; the farm has now undertaken responsibility for maintaining that supply, and careful management has reduced the deficits on these Halls, but it continues to be impossible to maintain an adequate diet without loss. The Council has decided that the time has come when the fees charged must be substantially increased, to £60 in 1951, £65 in 1952 and £75 from 1953 on, and it is expected that part of this increase will be allocated to the Hostels and Dining Halls.

During this year a number of meetings have been held with representatives of Rhodes University College at which the Statutes and Regulations of Rhodes University in so far as they will affect the work of this College, have been fully discussed, and the general agreements reached on these matters have been very satisfactory. We wish to record our appreciation of the understanding spirit in which we have been met by the representatives of Rhodes University College.

We wish again to thank all concerned with the direction and work of the College for their co-operation and willing service during the year.

We have the honour to be,

Sir,

Your obedient servants,

R. H. W. SHEPHERD, *Chairman.*

CLIFFORD P. DENT, *Principal.*

FORT HARE HANDBOOK

General Information for Students Applying for the First Time.

SCOPE AND OBJECT

The College is designed to provide University education for African, Coloured and Indian students, both men and women. Preference in regard to admission is given to fully qualified African students.

SITUATION

The College is situated at Fort Hare, a mile from the railway station of Alice, in the division of Victoria East, Cape Province. Alice is reached by rail either via Blancy or Cookhouse.

University of Fort Hare
COLLEGE YEAR
Together in Excellence

The College year is divided into two sessions of two terms each. The dates for the beginning and end of the sessions are as follows :—

First Session—Friday February 22 to June 19.

Second Session—Friday July 18 to the end of the November examinations.

All students must make arrangements to stay away from College during the summer vacation. During the winter vacation men students from distant areas may apply for permission to remain in the College at a charge of £1 5s. per week or portion of a week.

ADMISSION OF STUDENTS

1. Candidates for admission must
 - (a) Apply to the Registrar not earlier than October in any year for the necessary form ;
 - (b) complete it, including the certificate of character and attainment which must be signed by the Principal of the school last attended by the applicant ;

- (c) forwarded it without delay to the Registrar together with a deposit of £3 which will be refunded if the candidate is not accepted. In the event of an applicant being accepted and enrolling at College, this deposit will be credited to his fee account. In the event of an applicant being accepted, but intimating to the Registrar before 10th February that he will not enrol at College, the deposit will be refunded; if intimation is not made before 10th February, the deposit will not be refunded.
2. The usual time for enrolling is at the beginning of the College year in February. Only in exceptional circumstances will students be admitted after classes have been arranged.
 3. Students of the Anglican, Methodist and Presbyterian denominations will be assigned to their respective hostels. Students of other denominations may, in their application, state in which hostel they wish to reside, but final allocation to a hostel will be made by the Wardens' Committee, preference, in so far as available accommodation allows, being given to the choice of the parent of the student. No student will be allowed to change his hostel while at College.

There is a College Hostel for Women, Elukhanyisweni, which accommodates 50 students of various denominations. All students must be in residence in one of the Hostels unless special permission has been obtained. Permission to arrange board and lodging elsewhere is only granted to students who can live with their parents or near relations.

4. Students, on production of a certificate signed by the Registrar, are allowed to travel by rail and railway bus from the station nearest to their home under certain conditions at reduced fares. When making application students should notify the Registrar of the name of the Railway Station nearest to their home (and, if necessary, the name of the bus station) and also the class in which they wish to travel. These Railway concession tickets are only available for the journey from the home station to Alice and back. They must not be used by any other person except the one named on the certificate, nor can they be used for broken journeys. A place should be booked on the train immediately on receipt of the concession certificate to enable the student to reach College by the day on which the term opens.

ENTRANCE QUALIFICATION

No Student can be admitted to degree courses without the approval of the S.A. Joint Matriculation Board.

This approval is indicated in the official lists of successful candidates for the various examinations as follows :

(a) Joint Matriculation Board Certificate—by a capital M. in brackets prefixed to the candidates' name thus :— (M)

(b) The Cape Senior Certificate ; the Transvaal Secondary School Certificate ; the Orange Free State School Leaving Certificate :— by an asterisk in brackets prefixed to the candidate's name thus :— (*)

Students who have such qualifications as the London Matriculation and the Cambridge School Certificate are not thereby automatically exempted from Matriculation in South Africa, but must themselves take the necessary steps to obtain such exemption from the Joint Matriculation Board, P.O. Box 392, Pretoria, before being admitted to degree courses.

If a student who has failed to qualify for full Matriculation applies to the Joint Matriculation Board and is granted "conditional" exemption to begin degree courses, it is the responsibility of that student (and not of the College) to see that the condition specified is carried out. The College cannot be responsible for any financial or academic loss incurred by a student who finds out after arrival at the College that he or she is not properly qualified for admission to degree courses.

Conditional exemption is usually granted for **ONE YEAR ONLY. NO CREDIT IS GRANTED FOR UNIVERSITY PASSES** in that year **UNLESS THE CANDIDATE QUALIFIES FOR FULL EXEMPTION BEFORE MARCH 31st OF THE FOLLOWING YEAR.**

N.B. Every new student must present his Matriculation Certificate or equivalent at the Registrar's Office before the 30th of April.

Students who have obtained the Senior Certificate but have not obtained exemption from Matriculation may apply for admission to the Agricultural Course.

The South African Native College is now affiliated to Rhodes University and is preparing its students for the degrees of that

University. It no longer prepares for the degree of the University of South Africa. Under the statutes governing the award of Rhodes University degrees, these degrees can only be awarded to students who have spent 3 years in attendance at approved classes as internal students. One of these years may, however, be spent in attendance at classes leading to the U.E.D. or to an Honours degree. Students who have taken the equivalent of a first year course as external students of the University of South Africa, may therefore qualify for a Rhodes Bachelor's degree plus a diploma or Honours degree in 3 years : but *NO DEGREE can be conferred on any student who has not been a registered internal student for at least 3 years* . A maximum of one year's attendance, however, as an internal student of a University other than Fort Hare, such as Natal, Cape Town or Witswatersrand may be credited towards this 3 years' requirement.

COLLEGE REGULATIONS

Assemblies.

(a) All students are required to attend at Morning Assembly at 8.40 a.m. in the C.U. Hall on weekdays.

(b) All students are expected to attend Hostel Prayers at 7.0 p.m. on weekdays, Hostel Services at 9.0 a.m. on Sundays, and Evening Service in the C.U. Hall at 7.15 p.m. on Sundays.

Admission.

All students must report to the Warden of the Hostel to which they are assigned immediately on arrival and before taking their rooms in the Hostel. The College Roll must be signed in the Registrar's Office, Stewart Hall, as soon after arrival as practicable. No student is reckoned a member of the College till this has been done.

Bounds.

Fort Hare, the town of Alice, and Lovedale are within College bounds. All other places are out of bounds, and permission must be sought from the Wardens to visit such places.

No student is permitted outside Fort Hare after 8.0 p.m. and permission to visit the town of Alice or Lovedale after that hour must be obtained from the Wardens. No student is allowed outside his Hostel after 11.0 p.m. Written permission to stay out-

side the Hostel on any occasion must be sought from the Warden, and the Principal's permission be obtained.

Visitors.

All visitors to the Hostels must first be introduced to the Wardens.

Students may take visitors round their Hostel only with the permission of their Warden.

Women visitors are not allowed in the Men's Hostels except that they may be allowed only in the Common Room with the express permission of the Warden. The same rule applies *mutatis mutandis* to the Women's Hostel.

Meetings.

Students may attend meetings within the precincts of Fort Hare under the conditions laid down by the Senate.

Hostel meetings may be held on Tuesday evenings after Prayers until 8.0 p.m. If the meeting extends beyond 8.0 p.m., or is likely to do so, the approval of the Warden is required and the Agenda must be submitted to him beforehand.

Evening Study Period.

During the evening study period, 7.0 p.m. to 11.0 p.m. students are under the supervision of their Warden.

Student Meetings.

These must be arranged to take place at times which do not clash with the College or Hostel Assemblies mentioned in the first section of these regulations.

Times for Student Society Meetings are prescribed in the Constitution of the Students' Representative Council.

Student Committee Meetings are arranged as required, subject to the condition mentioned above.

Other ad hoc meetings require the recommendation of the S.R.C. and the approval of the Principal.

Alcoholic Liquor.

The possession, consumption and supply of alcoholic liquor by students is strictly prohibited, and students should know in advance that the penalty for a contravention of this regulation is suspension or expulsion.

Departure.

Students are required to depart from the College immediately on conclusion of their examinations in June and November, and intimation of the day and time must be made in advance to the Warden.

Sport.

The College provides opportunities for participation in a number of sports. No pressure is brought to bear on any student to compel him/her to join any sports club, but any student signing a club list thereby

- (1) intimates his/her intention of joining that club
- (2) accepts the following obligations :
 - (a) To acknowledge the right, in relation to the activities of that Club, of the Committee appointed by the members of the Club to :
 - (i) arrange practices and matches and to select teams for such practices and matches.
 - (ii) require members to attend practices and to play in arranged matches, except in so far as these may interfere with class or laboratory periods.
 - (iii) take such disciplinary measures as may be required in the interest of the Club.

Members of the Club have the right of appeal to the Athletic Union against any penalty imposed by the Club Committee.

- (b) To provide his/her own personal equipment for the particular sport managed by the club he/she joins. The equipment required is as follows :—

Cricket : no special personal equipment required for practices but cricket shirt and trousers, and either cricket boots or tackies are required for College matches.

Tennis : a racquet and tennis shoes. White shirts and trousers or shorts for men and tennis frocks for women are required for matches.

Football—Rugby or Soccer—a College Jersey, one other jersey of any colour different from the College Jersey, shorts, stockings and boots. Playing in ordinary clothes, even in practices, is against the interest of parents on account of the damage done to such clothing, and is not permitted, except

that a shirt may be used for soccer practices instead of a jersey.

Athletics—shorts and a vest or shirt are suitable. Running shoes are desirable, but not essential.

Soft Ball—No special personal equipment.

DINING HALL REGULATIONS

1. No food is served in the Dining Hall before meal hours, or to anybody coming late for meals, except to students who have a written request from their Warden or Principal.

2. Students are not allowed to enter the kitchen or pantries under any circumstances. Necessary requests must be submitted through one of the maids in attendance.

3. No food supplied to the students is to be taken away from the Dining Hall without a written request to the Boarding Master from one of the Wardens, and no crockery or other utensils may be removed from the Dining Hall. Students who do so are liable to a fine.

4. On special occasions, and with the permission of the Boarding Master, food supplied by the students themselves may be cooked by the kitchen staff and may be eaten in the Dining Hall, but it must not be taken away.

5. Students are asked to be especially careful in the use of all crockery, etc. No banging or hitting of cups, plates or dishes as a means of applause can be allowed.

6. As these regulations have been framed in the interests of the student body, the S.R.C. and Senior Students are asked to co-operate in seeing that they are adhered to.

MEDICAL ATTENTION

Routine Medical Inspection : Students are medically examined during their first and last terms by the College Health Officers, at such times as may be announced. The wardens concerned are informed of any defects found.

Sickness : The College Physician holds a clinic daily at which sick students are seen. Students wishing to see the doctor must first report to their warden. No student will be seen unless bearing a written request from the warden of their hostel. There is 1.0 charge for medical attention, except for special forms of examination, treatment or dentistry.

In the interests of communal health students may at times be required to undergo medical examination, receive treatment, or be given protective inoculations, as the College medical staff may decide.

FEES.

The fees set out below are block fees, covering Tuition, Board and Lodging, University Registration and Examination fees for normal courses of study.

B.A., B.Sc., U.E.D.: £65 per annum for 1952. £75 per annum 1953 and after.

Agricultural Diploma: First year at Fort Hare £65.

Second year, at Fort Cox: £15 per annum for Union Nationals, and £32 per annum for students from outside the Union.

Third Year, at Fort Hare: £54 per annum for 1952. £64 per annum 1953 and after.

Certificate in Theology: £39 for 1952 per annum for accepted Theological Students of the Methodist, Presbyterian and Congregational Churches.

THESE FEES DO NOT COVER:

1. THE COST OF BOOKS, NOTE BOOKS, ETC,

Books are obtainable at the Lovedale Bookstore, and students must be prepared to purchase their books as soon as they are registered for attendance at classes. Students may not be admitted to classes unless provided with the necessary books. This applies to all students including those in receipt of bursaries. The cost of books varies for different classes, but the average cost for books required for a year's work is about £10. As it is inadvisable for students to travel carrying a large sum of money, parents are advised to deposit £10 with the Bursar for the purchase of books, and students on whose behalf this is done will be given book orders from the Bursar's office.

2. FEES FOR ANY EXAMINATIONS ADDITIONAL TO THE MINIMUM NUMBER REQUIRED FOR DEGREE PURPOSES, e.g. repeat examinations, examinations "not for Degree purposes," and the examination taken in the place of Education for the U.E.D.

3. ANY COSTS INCURRED BY STUDENTS DOING PRACTICAL TEACHING AWAY FROM THE COLLEGE in connection with their training as teachers. If students are away doing authorised practice teaching during the College sessions, a rebate 1s. 3d. per day on the boarding fee while the College is in session will be allowed.

THE COLLEGE CANNOT MAKE ADVANCES TO STUDENTS TO MEET THESE OR OTHER ADDITIONAL EXPENSES.

General Regulations

1. All fees are payable in advance at the beginning of each quarter namely by the first day of session, the first day of May, the first day of August and the first day of October.

2. If a student receives a bursary from a public body he may pay the balance of his fees, if more than £1, in four equal quarterly instalments as above.

3. Students whose accounts are not settled within the first fortnight of each quarter will not be entered for examinations and are liable to suspension from classes.

4. Cheques and money orders should be made payable to The Bursar, S.A. Native Collège.

5. A quarter's notice of intention to leave College must be given.

6. Country cheques must include exchange.

INFORMATION ABOUT CAREERS

A. Teaching.

Teaching is a vocation for a practical idealist. Without it, very little progress is possible for a people in any direction: better health, better farms, better incomes, better characters all depend on intelligent education. Intending teachers must therefore be idealistic, vigorous and intelligent; must like people, especially young people; and must have a good mastery of English.

Students who intend to become teachers in secondary, high or training schools must:—

(a) obtain either

(i) an Arts or Science degree which must include a number of school subjects as specified in the regulations.

or (ii) must qualify for admission to the final year of a degree course including in their curriculum a number of school subjects as specified in the regulations.

N.B. Advice in the choice of subjects will be given by the Board of Studies.

and (b) Devote one full year to the University Education Diploma (U.E.D.) Course.

Students who intend to become teachers are advised to do preparatory work for the diploma concurrently with their degree course. This will include :—

- (a) 1-2 periods of teaching practice or other practical work a week, for 2 years ;
- (b) 2-4 weeks of teaching in a school during College holidays.

This preparatory work counts towards the requirements of the U.E.D. year. Without it, students who have not completed a degree course are not admitted to the U.E.D. (non-graduate) Course, and others will find it of value during their diploma year. Regulations permit students to complete any of the following U.E.D. subjects at any time during the degree course : " skills " (Community Projects, Musical Appreciation and School Music, Art Appreciation and School Art, Dramatic Art, Organisation and coaching of games and sports, Typing, etc.,) Language work, Black board work, School Hygiene and First Aid. As the U.E.D. course involves an average of 25 periods of class work a week, prospective teachers are advised to complete some of this work before the U.E.D. year.

B. The Ministry.

Two courses of study for the Ministry of the Christian Church are offered.

- (a) For matriculated candidates a course of study for the B.A. degree with major courses in Biblical Studies and Systematic Theology. This course is under the direction of the Senior Lecturer in Divinity.
- (b) For non-matriculated candidates a course of study for the College Certificate in Theology. This course is under the direction of the Wardens of the Methodist and Presbyterian Hostels.

Prospective non-matriculated theological students who have time and opportunity are advised to attempt the Matriculation

course for the National Senior Certificate; particulars can be obtained from the Secretary for Education (Examination Section), P.O. Box 1035, Pretoria.

Application for admission to theological courses should be made to the Warden of the Methodist or Presbyterian Hostel, or to the Senior Lecturer in Divinity, Fort Hare.

C. Public Health.

The degree of B.Sc. (Hygiene) is now available to those who wish to take up the profession of Public Health. The course is primarily designed for African men students who wish for Careers in the Government Health Centre Service. For those wishing to enter the Municipal Health Services as Sanitary (Health) Inspectors, this degree is a recognised qualification under the Public Health Acts. African women students and Indian and Coloured students are admitted to the course only if places are available; but employment under the Union Department of Health is not necessarily available for them.

The curriculum is given on page 16. Applicants for the course must have passed Mathematics in Matriculation.

Owing to limited laboratory accommodation, admission of students to the second year of this course is reviewed on the basis of attainment in the first year science course.

In the case of those entering Government service a fourth year will normally be spent at the Institute of Hygiene and Social Medicine, Durban, for which the student is paid at an approved rate.

This course is recognised by the Joint Board of the Union Government and the Royal Sanitary Institute for those desiring to take the examination of that body, provided that certain conditions regarding post-graduate probation are fulfilled. (Further particulars may be obtained from the *Secretary, Joint Board of the Union Government and the Royal Sanitary Institute, P.O. Box 452, Capetown.*)

See page 22 for Bursaries available.

D. Medicine.

Students intending to study medicine may take their first year at Fort Hare, provided they have passed Mathematics in Matriculation. Exemption from the first year at a Medical School re-

quires a pass at the end of the first year in Physics, Chemistry (including Organic Chemistry), Botany and Zoology with a minimum of 50% in each subject. Failure to get 50% in any of these courses at the end of the first year is condoned if the student

- (a) passes a second year course in each subject which he has passed with less than 50%, or
- (b) completes a Degree course which includes the first four courses mentioned above.

The course at a medical school lasts another five years, and costs approximately £250 p.a., inclusive of residence fees.

A limited number of scholarships are available for African students who have qualified as above for the course at a medical school. The scholarships are awarded on the basis of the student's work at this College.

E. Agriculture.

There is a demand for students with advanced training in general education and agriculture. The College provides a three years' course in agriculture, beginning with the first year B.Sc. courses in Physics, Chemistry, Botany and Zoology. It is believed that excellent opportunities await those men who prepare themselves for the duties of teachers in agricultural schools and as field officers.

F. Civil Service.

New grades in the Clerical Division of the Civil Service are gradually being opened up to non-Europeans. One such new grade has been provided in the Native Territories of the Transkei. The pre-requisite for admission is Matriculation. All persons admitted to the Civil Service must have passed in both official languages.

G. Interpreting.

A diploma course for the training of Clerk-Interpreters has been begun. This is designed to give men who wish to enter Government or Council employment a sound education (including degree studies in law and administration) and practical training and skill in interpretation under an experienced interpreter. No guarantee of employment can be given, but the Government has intimated that it is prepared to encourage the employment of African men who undergo this training.
